AMERICAN DOUBLES

PLAY · MIX · ENJOY

A new partner every round, your own score all night.
Everything you need is on your phone: nothing to install.

SCAN FOR THE APP

HOW THE NIGHT WORKS

- You play several short rounds, usually about **15 minutes** each with a **5-minute break**.
- Every round you get a **new partner** and new opponents. The app picks fair, well-matched courts.
- Play as many **games** as you can (no sets). When the Organiser calls time, **finish the game you're on**.
- You score **the games your pair won**. They add up across the night, and the most games wins.
- If there are more players than places, some sit out a round. It's shared out fairly, and **sitting out never counts against you**.

BEFORE THE NIGHT (OPTIONAL)

If the club sends a **sign-up link**, open it and add your name, Male/Female and level. You can sign up friends at the same time. If you don't, just turn up and check in.

WHEN YOU ARRIVE: CHECK IN

1. **Scan the QR code** the Organiser shows you, with your phone camera.
2. **Tap your name.** Not on the list? Tap *I'm not on the list* and add yourself.
3. **Check your level** (see the right).
4. Tap **CHECK IN**. You'll land on **My night**.

> **CHECKING IN FRIENDS?** Tap their names too before you tap Check in. Their names appear at the top of My night: tap one to switch.

YOUR LEVEL

Competitive	Play league or team tennis, or win many of your club matches
Intermediate	Play regularly, comfortable with doubles positioning and net play
Improver	Can rally and serve, building consistency
Beginner	New to tennis or still learning the basics

Be honest: it makes the games closer and more fun for everyone.

MY NIGHT: YOUR PHONE DURING PLAY

- Shows every round: your **court**, **partner** and **opponents**, or *Sitting out*. The round on now is marked **Current**.
- Keep the page open. If you close it, open the app, tap tonight's night, then **My night**.
- If the Organiser changes the rounds (say for a late arrival), you'll see *"Your rounds were updated"*. Check your court.
- **All rounds** shows every court; **Rankings** shows the live table. There's also a big screen in the clubhouse.

ENTERING YOUR SCORE

1. After the round, **one of the four** taps **ENTER SCORE**.
2. Use **+** and **–** to set the **games each pair won**, for example 5 and 3.
3. Tap **SAVE SCORE**. It counts for all four of you.

> **WRONG SCORE?** Once a score is in, it's locked for the others on the court. The person who entered it can correct it; otherwise, tell the **Organiser**.

RANKINGS

Most games won wins; ties go to game difference. If you sat out more rounds than others, your average is added for each one you missed (on "Equal matches" nights everyone plays the same number of matches instead). Rankings can be shown for Men, Women or each level.
